WORK EXPERIENCE

Mobility Access Philippines Ventures, Inc. (MAPVI) Oct 2025 - Sept 2026

Dealer Business Management Specialist

- Conducted financial and operational analysis of dealership performance using P&L statements, balance sheets, cash flow statements, and key business reports.
- Identified performance trends, variances, risks, and opportunities, providing actionable recommendations to improve profitability and operational efficiency.
- Prepared and presented quarterly dealer management reports and business reviews, highlighting key KPIs, performance gaps, and improvement opportunities.
- Developed and maintained dealer scorecards and dashboards, tracking financial, sales, aftersales, operational, compliance, and customer experience KPIs.

Honda Cars Philippines, Inc Apr 2025 - Sept 2025

Business Intelligence (BI) Analyst

- Transformed raw business data into actionable insights through BI dashboards and reports, enabling KPI monitoring, trend analysis, and data-driven decision-making.
- Ensured data accuracy, consistency, and integrity across reporting and analytics deliverables.
- Monitored BI platform performance, troubleshot technical issues, and provided user support and training on BI tools and reports.

Honda Cars Philippines, Inc Sept 2024 - March 2025

Units in Operations Management

- Led process improvement and repurchase initiatives, including target setting and standardization, to support growth in repurchase sales.
- Developed marketing strategies, promotions, and short- and long-term plans aligned with Honda Motors and Asian Honda objectives.
- Trained dealer sales frontliners on relevant processes, programs, and repurchase activities.

TRAININGS & CERTIFICATIONS

Micropinnacle Technology Corporation
- **Qliksense Comprehensive Training**

TIV Management Consulting
- **Basics of Project Management**

Inventive Media Philippines, Makati City
- **Javascript Essentials (30hrs)**
- **HTML and CSS with bootstrap (30hrs)**

- **Customer Driven Supply Chain Management**

Honda Road Safety Driving, Parañaque City
- **Basic Safety Driving Course (AT & MT)**

Honda Cars Philippines, Inc
Aug 2020 - Sept 2024

Systems Process Improvement Lead

- Led SAP and e-commerce system improvement projects, translating business requirements into effective system and process solutions.
- Managed end-to-end system implementations, analyzing business workflows and digital customer journeys to improve processes, UX/UI, and operational efficiency through requirements gathering, testing, training, and post-implementation review.
- Negotiated directly with foreign and local system suppliers on costs, functional specifications, technical requirements, and project deliverables to ensure business needs and commercial objectives were met.

Projects Implemented

Project Title: Personal Portfolio Website (Capstone 1) **Project Link**
Role: Zuitt Student (Front-end Developer)

- Developed a responsive personal portfolio website using HTML, CSS, and Bootstrap, featuring a mobile-first design, interactive project gallery, image lightbox, custom animations, and Bootstrap's grid system.

Project Title: Virtual@Honda – Digital Automotive E-Commerce Platform
Role: Project Manager **Project Link**

- Implemented an innovative digital automotive e-commerce platform during the COVID-19 pandemic, enabling customers to inquire, book test drives, request quotations, and reserve vehicles online through a virtual showroom.
- Streamlined the customer journey by enabling customers to complete key vehicle transactions digitally, improving accessibility and convenience.

Project Title: Dealer Portal & Lead Management Platform
Role: Project Manager

- Implemented the backend platform supporting Virtual@Honda, enabling dealerships to efficiently manage and respond to customer transactions and leads.
- Digitalized lead distribution from marketing campaigns, allowing dealerships to monitor, manage, and respond to online transactions through mobile devices without requiring VPN access.
- Improved communication between the distributor and dealerships by providing faster access to customer and transaction information.

Project Title: Website-to-SAP Integration via API
Role: Project Manager

- Implemented API-based integration between the website and SAP CRM/DBM Sales, automating the transfer of customer information across systems.
- Automated customer account creation, eliminating duplicate data entry and reducing the risk of duplicate customer accounts.
- Improved customer data accuracy from 40% to 92% by streamlining data flow between digital platforms and SAP, implementing validation rules, and enhancing customer information collection.

Project Title: SAP Invoice Registration Process Improvement
Role: Project Manager

- Digitized invoice registration in SAP, eliminating paper-based claim processing, normalizing inventory levels, and enabling better assessment of the network's natural sales strength.

Honda Cars Philippines, Inc March 2018 - Aug 2020

Export Planning (Order & Supply) Sr. Associate

- Managed parts export planning, order processing, and supply coordination, ensuring timely delivery from local suppliers.
- Prepared daily and monthly operational reports for management, Executive Committee, and Asian Honda.
- Coordinated with Honda import teams across multiple countries, including the UK, Malaysia, Thailand, India, Pakistan, Indonesia, and Vietnam, to ensure smooth international parts operations.

Holcim East Asia Business Service Nov 2017 - March 2018

Customer Care Analyst & Order Management Specialist

- Managed end-to-end sales order processing, ensuring accuracy, timely dispatch, and coordination with logistics and customer service teams.
- Monitored the complete order lifecycle, resolving issues and ensuring timely fulfillment and customer satisfaction.

Hewlett-Packard (HP) Inc. June 2015 - Nov 2017

System Administrator & Order Management Specialist

- Administered HP Online Shopping systems and managed order operations for APAC markets, including Australia, Singapore, and Malaysia.
- Managed end-to-end order processing, tracking, fulfillment, and customer communication.
- Supported foreign customers through an in-house call center, resolving inquiries and service issues using Zendesk, Salesforce, and email.
